

THE HOPE SOCIETY

The Hope Society continues a long community tradition of support for New London Hospital (NLH) throughout the greater Lake Sunapee region. From the Hospital's beginnings, with four beds in the Morgan House, to its present location, much has changed over the past century. The one constant has been steadfast support of the community—which has played a critical role in NLH's growth and success.

The Hope Society name honors Hope Stryker, the only traveling nurse in the region during the early 1900s. She traveled on dirt roads by horse-drawn carriage or sleigh, assisting Dr. William Clough. He described her as, "a real heroine, a hard worker, and always willing to go on maternity cases." Hope was aptly named, as her patients surely felt hopeful once she arrived at their homes to care for them.

By enrolling in The Hope Society, you will make a positive difference in the lives of others for generations to come. You will serve as a partner in our mission to continually improve the wellbeing of individuals in our region by providing high-quality healthcare to our communities.

New London Hospital

At New London Hospital, compassionate care happens every day.

Here are just a few examples of how gifts through your will, trust, or by beneficiary designation can impact medical care for future generations.

Educate clinicians who provide excellent and highly **compassionate care.**

Improve health care outcomes in the **15 communities** that we serve.

Create healthy opportunities for future generations with **new tools and technologies.**

Your gift can change lives.

By naming the hospital as a beneficiary of your will, trust, or retirement plan, you are guaranteeing that patients and their families will always receive high-quality, dedicated, compassionate care.

“My wife and I moved to New London 25 years ago as we began our retirement. One of the unknown benefits to us of that move was to discover a hidden gem in our backyard, New London Hospital. Subsequently, I have been privileged to serve on the hospital’s Board of Trustees for 15 of those years. Many of the dedicated and competent staff members have become like family to me. As we do estate planning to remember our own families, I am honored as well to remember the New London Hospital in my will. Please join me in leaving a personal legacy by remembering this wonderful institution in your own estate planning.”

-Chris Cundey, Hope Society Member
